Training to reach Communities

In February a group of 40 men and women were trained in Jamshedpur, in the state of Jharkand. In the following months these people were able to start new Bible Story groups in 3 villages. In a village called Tanti Nagar 20 people have started meeting in a Bible Story group. In village Rajabasa 25 people meet, and in village Barudih 15 people are in a group. These people are

from the Ho people group. They are animists who worship nature. These Bible Story groups are centers where people hear stories from Creation to Church. As they listen to the stories they learn about God's love and are able to make a decision to follow Christ. These groups usually become House Churches.

In order to build sustainable movements we have found the need to equip the new believers to learn a skill that will allow them to work and earn some money in their villages. We have included training for women in sewing dresses and also salon services like hair cutting, pedicure, manicure etc. This training along with the story training helps them to share the gospel without being dependent on outside funding for their work. Learn2Live is a ministry to help people learn life skills and job skills that will equip them to make a living.

Thank you for partnering with us to bring the good news to those who have not heard
